

Research and Writing in a Digital World

Join us for this exciting four day workshop to explore how the age-old research based writing project can be augmented, modified and redefined using digital tools. In four half-day sessions participants will learn about and experiment with digital tools and platforms that will facilitate the transition to writing in digital spaces. Participants will also explore best practices for conducting online research with students, and will engage in the writing process for a digital research-based writing project. Bring your own device(s) for this excellent workshop on preparing students for researching and writing in the digital age.

Instructors: Stephanie Robillard and Ari Dolid
August 10th - August 13th from 9:00 a.m. - 12:30 p.m.
St. Ignatius College Preparatory High School
Appropriate for Teachers of Grades: 4th - 12th
\$350
