

Unpacking the Smarter Balanced Performance Tasks For Grades 3-11

An Open Institute for educators in all content areas interested in understanding how to prepare students for the literacy demands of the Smarter Balanced Performance Tasks.

Only \$50 (\$25 for Writing Project Teacher Consultants or participants with a valid CSUN ID).

The Assessments Have Changed! Are Your Curriculum and Instruction Keeping Pace?

One thing is clear. Simply “teaching to the test” is no longer an option if we hope to prepare students for the literacy demands of the SBAC Assessments! In this workshop we will work collaboratively to understand SBAC’s Assessment Claims, recognize the alignments between the reading and writing literacy standards for which all teachers are now responsible, and identify research-proven and classroom-tested instructional routines that will help your students develop the literacy proficiencies that support success.

Join like-minded colleagues to explore the CCCSS-aligned instruction that develops SBAC proficient student readers and writers!

- Includes Continental breakfast
- Includes all materials
- 9 until noon Wednesday, July 22, 2015
- Michael D. Eisner College of Education, 3117 California State University, Northridge
